

# Dalhousie Medical Research Foundation Warmly Welcomes Ms. Alison Edwards

Frank Sobey, Chairman of Dalhousie Medical Research Foundation (DMRF) is pleased to announce the appointment of Ms. Alison C. Edwards as Executive Director, effective April 1st, 2008.

Through the generosity of its donors, DMRF has built an endowment of over \$50 million for medical research. The Foundation's Molly Appeal is supported by thousands of Maritimers every year.

Dalhousie Medical Research Foundation is thrilled to have the benefit of Alison's vast experience, education, and knowledge of the research environment.

Alison brings over 25 years of experience in the academic and health environment. After graduating from Dalhousie University with a Bachelor of Science and a Master of Business Administration, she began working in the Ancillary Services area of

Dalhousie University. In 1990, she took on the role of Administrator for the Department of Family Medicine for 8 years. She then accepted the position of Director of Finance for the Faculty of Medicine in 1998 and while working in this role obtained her Certified General Accounting (CGA) designation with honours in 2002. In 2005, Alison moved to the position of Executive Director of the Brain Repair Centre and was part of the BRC team which in 2006 applied for and successfully obtained ACOA and CFI grant funding of over \$8 million.

We look forward to this new chapter in the Foundation's continued growth and success.
